

## Take your hearing to the next level

With Signia Active Pro, you no longer have to worry about missing out on conversations or asking people to repeat themselves. Take your hearing to the next level by upgrading to Signia Active Pro.

### About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, but performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.

## Prescription audio that performs

These unique two-in-one earbuds combine state-of-the-art connectivity with high-definition prescription audio that you find in the most advanced hearing aids. Yet Signia Active Pro looks nothing like a traditional hearing aid. They come in a pocket-sized charging case that lets you put the buds in and out of your ears when you need them.

Thanks to Qi wireless charging, you can just place the case on a charging pad instead of having to plug it in.

### Tinnitus options

If you suffer from tinnitus, Signia Active Pro features a range of therapy options to make your life more comfortable.

## Hear what really matters to you

Whether you are in a crowded street, working in an open-plan office, or dining in a busy restaurant, wherever there's a high level of background noise, holding a conversation requires concentration and effort. Signia Active Pro tackles these challenges expertly while providing brilliant sound.

### Sleeves

The sleeves come in four different sizes and a closed and open build version suitable for most ear anatomies and hearing needs.

## Personal support, at your fingertips

Signia Active Pro connects to the Signia app, which contains the Signia Assistant and TeleCare support. Using artificial intelligence, the Signia Assistant offers immediate support whenever you need to adjust settings. Signia TeleCare enables you to keep in touch with your hearing professional, so you get extra support on the spot when you need it. The Signia app acts like a hearing professional in your pocket, so you can Be Brilliant in any situation.

Compatible with Android and iOS. The app is free of charge.

Ask your hearing care professional for more information on Signia Active Pro hearing aids, useful accessories and the Signia app.
