

5 REASONS
WHY THIS
SOUND
CHANGES
EVERYTHING

WIDEX MOMENT™
THIS SOUND CHANGES EVERYTHING

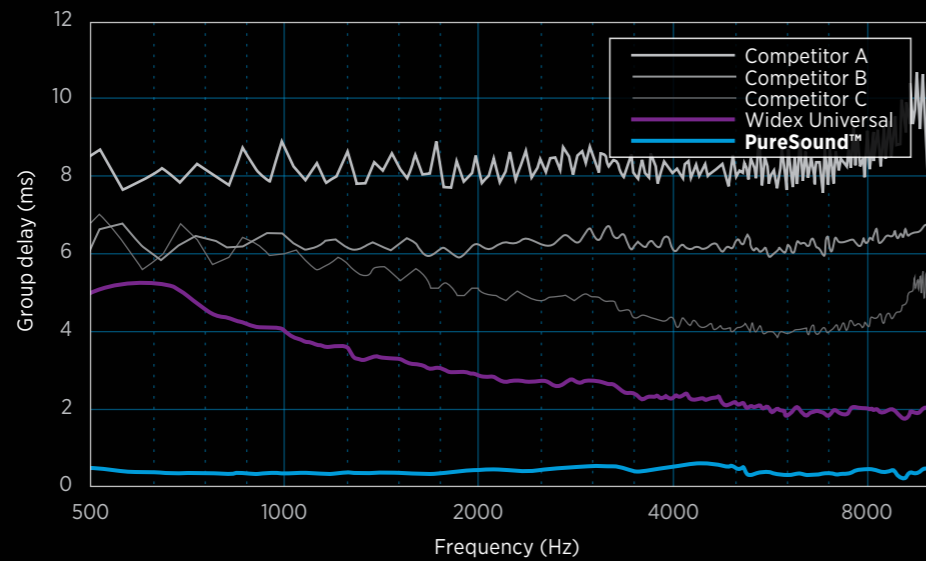

1 THE ONLY HEARING AID THAT DOESN'T SOUND LIKE A HEARING AID

WIDEX **MOMENT™** features the revolutionary new PureSound™ pathway powered by **ZeroDelay™** — the fastest signal pathway in the industry, by far. ZeroDelay™ Technology

processes the sound signal as much as 7 ms faster than other digital hearing aids, providing wearers a sound so pure and natural that you have to hear it to believe it.

THE FASTEST SOUND PROCESSING IN THE HEARING AID INDUSTRY

Amplified sound from the hearing aid and direct sound passing through vented fittings combine in the ear to produce an artifacts and distortion known as the comb-filter effect.

Widex **MOMENT™** eradicates the comb-filter effect by providing a delay so low that it is virtually zero. This leaves wearers with a more natural sound and a premium listening experience.

2 NOW IT'S EVEN EASIER TO MAKE THE RIGHT CHOICES

AS EASY AS 1-2-3

We've updated our Compass™ GPS fitting software — adding more granularity, control, and transparency while keeping the experience simple and intuitive. In fact, WIDEX **MOMENT™** fittings require 35% fewer clicks than before.

No two patients are the same, so why fit them the same? WIDEX **MOMENT™** provides a higher level of personalization with TruAcoustics™, a new in-situ gain optimization technology based on your patient's hearing loss and physical fit. TruAcoustics™ provides not only a more accurate first fit, but also long-lasting performance so wearers can enjoy all of their important real-life hearing moments naturally.

Our new three-step navigator and updated visualizations mean that you'll always know where you are in the fitting process, and the effects of your choices and recommendations are clear at every stage.

3 BUILT TO BE LIFEPROOF

Because less corrosion equals more durability, key areas of WIDEX **MOMENT™**, such as the microphone grid and the circuit block, have been treated with an advanced water-resistant nano coating. In addition, the new receivers in the WIDEX **MOMENT™** mRIC R D are engineered from stainless steel. They are smaller than previous designs, resulting in a more comfortable fit for users with small ear canals, and their increased power means you can cover most of the fitting range with just two receivers.

4 THE CONVENIENCE OF RECHARGEABILITY IS NOW MORE DISCREET THAN EVER

Now users don't have to compromise on sound to get the convenience of rechargeability. WIDEX **MOMENT™** is available as a lithium-ion rechargeable RIC hearing aid — the smallest of its kind. The WIDEX **MOMENT™** mRIC R D provides paradigm-changing sound and the convenience of rechargeability in the smallest and most discreet package possible.

Convenient wireless charging and intuitive operation. Handy, portable size.

USB connector (provided) compatible with users' existing devices.

LED light indicators enable users to monitor charging progress

Hinged cover protects against dust/debris for reliable performance.

5 STREAM FROM MORE DEVICES THAN EVER BEFORE

We've upgraded the 2.4 GHz Bluetooth connectivity in WIDEX **MOMENT™**, so users can now stream more reliably from iOS devices and other accessories. Soon WIDEX **MOMENT™** will be able to connect with select Android devices, too.* Enjoy all the streaming entertainment the world has to offer with WIDEX **MOMENT™**.

* Prepared for future connections with TV PLAY and Android devices

WHY WIDEX **MOMENT™** IS RIGHT FOR YOU?

To help you hear their best, WIDEX **MOMENT™** features exclusive Sound Class Technology that automatically adapts your hearing aids to their specific listening requirements. Without having to press any buttons, WIDEX **MOMENT™** ensures optimal clarity, comfort, and audibility in every situation.

ADDITIONAL WIDEX **MOMENT™** BENEFITS

Improved speech understanding

Accentuate speech and reduce noise from your surroundings.

Wind noise reduction

Hear clearly, even when it's windy.

Natural sound experience

Choose between the renowned Widex sound or the new Widex PureSound™.

Automatic sound adjustment

No need to adjust the hearing aid in every situation.

Direct Bluetooth streaming

Stream sound directly from Apple® or Android devices.*

Sound personalization

Intuitive app and artificial intelligence guide you to the best sound.

WIDEX **REMOTE CARE™**

Enables fitting and fine-tuning at any location the patient requests.

Real-Life Insights

Facilitates counseling by providing access to the patients' personal programs.

* Prepared for future connections with Android (ASHA)

WIDEX **MOMENT™** MODELS AND STYLES

Widex **MOMENT™** is available in three receiver-in-canal models and three in-the-ear models. Your hearing care professional can help you choose the ideal model for your specific hearing loss and lifestyle.

RECEIVER-IN-CANAL MODELS
